How to get the most out of this guide

Most people use AI like a search engine: a short question, a mediocre answer. The prompts in this guide work differently. They give the AI a **role**, your **context**, a clear **task** and a **format**. That is exactly what separates “kind of nice” from “ready to use”.

4 steps to a result

- **Open your tool:** ChatGPT, Claude, Microsoft Copilot or Gemini. Every prompt works everywhere.
- **Copy the prompt** and replace everything in **[SQUARE BRACKETS]** with your details. The more specific, the better.
- **Refine:** “Make it shorter”, “More in my tone”, “Give me 3 versions”. The first result is a draft, not the final product.
- **Check and approve:** AI delivers, you decide. Always double-check numbers and facts.

> **Privacy first**
>
> Never enter passwords, bank details or confidential client data. Replace names with placeholders (“Client A”) and use a business licence for company data (e.g. Copilot with your Microsoft 365 account).

Your 10 prompts at a glance

#	Prompt	What it gets you	Focus
1	Proposal Turbo	A proposal in 15 instead of 120 minutes	PROFIT
2	Price Check	Find out if you are too cheap	PROFIT
3	Inbox Helper	Answer emails in seconds	TIME
4	Content Week	5 social media posts in 20 minutes	TIME
5	Objection Crusher	Close more sales calls	PROFIT
6	Upsell Finder	More revenue from existing clients	PROFIT
7	Meeting Follow-up	Notes and follow-up on autopilot	TIME
8	Time-Waster Audit	Find your biggest time drains	TIME
9	Client Win-Back	Win back past clients	PROFIT
10	Knowledge to Product	Build a digital product	TIME PROFIT

01 The Proposal Turbo PROFIT

Turn a few bullet points into a convincing proposal

- **2 hrs → 15 min** per proposal · Three packages raise your average order value

PROMPT TO COPY

You are an experienced sales consultant for solopreneurs. Turn my notes into a convincing proposal.

My service: **[WHAT YOU OFFER]**
Client: **[INDUSTRY / TYPE OF CLIENT]**
Their problem: **[WHAT IS BOTHERING THE CLIENT RIGHT NOW]**
Result for the client: **[WHAT IMPROVES AFTER WORKING WITH YOU]**
My price range: **[AMOUNT]**

Structure: 1. The client's situation in their own words 2. Goal and benefit 3. Scope as a list 4. Process and timeline 5. Investment as three packages (Basic, Recommended, Premium), the middle one highlighted 6. Next step.
Tone: professional, warm, eye to eye, no jargon. One page maximum.

Pro tip: Most clients choose the middle package. Put the price you actually want there.

02 The Price Check PROFIT

Find out if you are too cheap and what you should charge

- For most solopreneurs a price increase goes **straight to profit**, with no extra work

PROMPT TO COPY

You are an expert in pricing strategy for small businesses in **[YOUR COUNTRY / MARKET]**. Analyse my prices.

My offer: **[SERVICE]**
Current price: **[PRICE]**
My time per project incl. preparation and follow-up: **[HOURS]**
My target group: **[WHO]**
Value for the client: **[e.g. saves 10 hrs/month, brings 3 new clients]**

1. Calculate my real hourly rate.
2. Estimate the economic value of my offer for the client.
3. Tell me honestly whether I am too cheap, and why.
4. Suggest a new pricing structure with packages.
5. Write 2 sentences I can use to announce a price increase to existing clients with confidence.

Pro tip: Describe the value for the client as concretely as possible. The AI bases its recommendation on it.

03 The Inbox Helper TIME

Answer difficult or annoying emails in seconds

- **Up to 3 hrs per week** less in your inbox

PROMPT TO COPY

Here is an email I need to answer:
[PASTE EMAIL, NAMES ANONYMISED]

My goal with the reply: **[e.g. book a meeting / decline politely / state my price / clear up a misunderstanding]**
My style: **[e.g. warm, informal, short and clear]**

Write a reply of no more than 120 words that ends with a clear next action. Also give me an even shorter version.

Pro tip: Save this prompt as a template or text snippet. Then it is ready in two clicks.

04 Your Content Week in 20 Minutes TIME

Plan a whole week of social media in one go

- **4 hrs → 20 min** for 5 ready-to-post pieces

PROMPT TO COPY

You are a social media strategist for **[YOUR INDUSTRY]**.
My target group: **[WHO]**
Their biggest problem: **[PROBLEM]**
My offer: **[OFFER]**

Create a one-week content plan with 5 Instagram posts:
– 2 Reels: hook for the first 2 seconds, script (max. 30 sec.), on-screen text
– 2 carousels: title slide plus 6 slide texts
– 1 personal post with a story from my everyday life

For every post: caption with a call to action and 3 matching keywords. Mix value, proof, personal and offer.

Pro tip: Paste 2 or 3 of your best posts so far and add: “Write in this style.”

05 The Objection Crusher PROFIT

Stay confident when you hear “too expensive” or “I’ll think about it”

- **More closed deals** from the same conversations

PROMPT TO COPY

I sell **[OFFER]** for **[PRICE]** to **[TARGET GROUP]**.
In sales calls I often hear these objections:
[e.g. “That’s too expensive”, “I don’t have time right now”, “I need to discuss it with my partner first”]

For every objection:
1. What is really behind it?
2. An empathetic answer in 2 to 3 sentences that doesn’t push.
3. A follow-up question that reopens the conversation.

Finally: how can I address each objection before the call, e.g. in posts or on my website?

Pro tip: Practise the answers out loud once. Then they sound natural in the call, not memorised.

06 The Upsell Finder PROFIT

More revenue from clients who already trust you

- Existing clients buy **more easily and faster** than new ones

PROMPT TO COPY

My clients currently buy: **[MAIN OFFER]**
Afterwards they typically face these challenges: **[WHAT COMES NEXT?]**

Develop 5 ideas for add-on offers my existing clients would happily buy: before, in addition, afterwards or recurring.

For each idea: name, benefit in one sentence, suggested price, effort for me (low / medium / high).
Mark the idea with the best profit-to-effort ratio and write a short text I can use to offer it.

Pro tip: Recurring offers like monthly support bring predictable revenue. Ask for them specifically.

07 The Meeting Follow-up TIME

Notes, tasks and follow-up email in one step

- **30 min → 3 min** per meeting

PROMPT TO COPY

Here are my notes or the transcript from a client call:
[PASTE NOTES OR TRANSCRIPT]

Create:
1. A summary in 5 bullet points
2. The agreed tasks as a table (Task | Who | By when)
3. Open questions
4. A follow-up email to the client that confirms the results and proposes the next step

Pro tip: Teams and Zoom create transcripts automatically. Copy, paste, done.

08 The Time-Waster Audit TIME

Find out what you can automate, speed up or hand off

- Shows you in black and white **how many hours per year** you can win back

PROMPT TO COPY

You are an expert in process optimisation and AI automation for solopreneurs.
Here is my typical working week: **[TASKS WITH HOURS, e.g. emails 6 hrs, invoices 2 hrs, social media 4 hrs]**
My tools: **[e.g. Outlook, Excel, Canva]**

1. Classify each task: automate / speed up with AI / delegate / do it myself.
2. For my 3 biggest time drains, name one specific tool each and the first 3 implementation steps.
3. Estimate the time saved per week and extrapolated to a year (46 working weeks).

Pro tip: Track for one week what you spend your time on. With real numbers the analysis gets much more accurate.

09 The Client Win-Back PROFIT

Win back past clients in a friendly way

- Often the **fastest revenue**, without any ads

PROMPT TO COPY

I want to reconnect with past clients who haven't booked anything for **[TIME PERIOD]**.
My offer: **[OFFER]**
What's new: **[NEW SERVICE / RESULT / PROMOTION]**

Write 3 short, personal messages (email or LinkedIn) of no more than 80 words:
1. Pure value, no selling
2. A piece of news plus an invitation to a short chat
3. A time-limited offer for past clients only

Tone: genuinely interested, not salesy.

Pro tip: Send the messages 1 to 2 weeks apart and personalise the first sentence each time.

10 From Knowledge to Digital Product TIME PROFIT

Create it once, sell it again and again

- Revenue that is **not tied to your hours**

PROMPT TO COPY

I am a **[PROFESSION]** with **[X]** years of experience in **[TOPIC]**.
Clients keep asking me: **[FREQUENT QUESTIONS]**

Develop 3 ideas for a digital product (e.g. mini course, template pack, workshop, e-book) that I can create with manageable effort and sell again and again.
For each idea: title, target group, result for buyers, content structure, price range, estimated effort to create.

Recommend the best idea to start with and give me a 7-day plan to make it happen.

Pro tip: Your clients' most frequent questions are your best clue to what people will pay for.

What this can mean for you

Let’s say you only use four of these prompts regularly, for emails, content, meetings and proposals. A realistic calculation:

5 hrs	× 46	230 hrs
saved per week	working weeks per year	more time per year, almost 6 full working weeks

And that is only the time. On top come higher prices, more closed deals and extra revenue from existing clients.

> **Your task for this week**
>
> Pick **one** prompt that speaks to you most and use it today. Not all ten at once. One prompt that really becomes part of your routine beats ten you have only read.

Where does AI pay off most in your business?

Prompts are the beginning. The biggest lever appears when we look at your business together: your workflows, your offers, your time drains.

In a **free 30-minute intro call** we find the 3 places where AI saves you time or makes you money right away.
